

1 Ruta Route Ermita de Crestatz

A long series of catheral kilometres that form this itinerary, the fields of culture in the surroundings of the localidad de Sa Pobla, which pass to the north of the town that seca the fields of the Sierra de Tramuntana, a series of magnificents routes that form the seven routes of the municipality, each one more detailed, an icon transversal to them all.

The Ermita de Crestatz, edificated a principios del segle XIX a partir de les restes d'una antiga ermita, que es troba al sud-oest del nucli antic del municipi, atreus a aquella ruta un marcant interès històric i cultural.

Crestatz Chapel

On this site, which was once a Roman fort, there were hermits until the 12th century. From here, you can walk round this interesting area, that forms the silhouette of the mountains.

Crestatz chapel, built at the beginning of the 19th century from the ruins of an old Romanesque church, located in the centre of the town, makes this walk interesting from a historical and cultural perspective.
